Programs:

- **Practical:** HCA offers a pragmatic program that helps ensure students have a successful transition into the communities in which they choose to live. Our teachers use a variety of hands-on techniques to reach students at their level of learning. Our location within and relationship with Grace Christian School allows our students to have interaction and integration with their peers.
- **Customized:** HCA features small group instruction & remediation in reading, writing, and arithmetic skills. Our curriculum is designed to meet the needs of each individual student, acknowledging their strengths, yet addressing their weaknesses.
- **Christ-focused:** HCA is founded on the principle that God has a design and purpose for every student. Our teachers strive to prepare their students for a full and productive life.
